

# Lincolnshire Bell Target League

## The Chairman's Update

We held the 2024 AGM and a new committee has taken over and it has big shoes to fill! Last year saw the committee taking charge and starting to develop this great sport. I would like to thank them for giving the 2024-25 committee members a strong foundation to build from.

### Looking Forward

At the AGM I was elected the next Chairman and I hope to meet you all soon as I intend to visit all of the venues over the next few months. I look forward to working with the new committee!

At the AGM we decided to increase the venue fortnightly fees to £4, the extra £1 is to be paid to the league to allow us to fund the year ahead. This is needed to help us give more back to our members and create a much more interaction, and more enjoyment!! We are also planning to attend more local shows to get more non shooters trying Bell Target and to help raise funds for the following goals.

### Purchase Equipment

Additional loan equipment to allow more new venues to get started at the same time as others and allow the division of the county into 7 areas.

### Online League Table

We are currently planning to implement an online league to help encourage our members to get involved in competing. From this we will be planning to create a number of trophy categories which will be inclusive and not only recognise the top shooters of the league but also the members which are the most improved and many more. Garry Griffin is also going to use this information generated to create a Handicap league which will work like a golf handicap, this will shake up the scores.

### County Championships

The county has not held this event for some time and due to the amazing amount of new members the event has to be scaled up which is going to require a lot of work from the committee logistics and money. The committee aims to make the 2025 championships a fresh new start and that is only possible with your support, if you can help in any way please get in touch with either myself or Garry Griffin.

Finally, I would like to ask the organizers of each venue to attend as many of the committee meetings as possible to give us your shooters opinions and allow you to be involved in the decision process. It also allows you to feedback to your shooters why we are making these decisions.

As always thank you to everyone that takes part in Bell Target
